

Confederation of Registered Essence Practitioners (COREP) Environmental Policy 2013

The Confederation of Registered Essence Practitioners (COREP) uses policies and procedures that ensure the conservation of natural resources whilst minimising any adverse environmental impact from our operations, including, but not limited to, waste reduction and recycling.

We aim to review our environmental policies and procedures regularly to improve our performance and quality.

All COREP practitioners are aware of this policy and their responsibilities for environmental issues.

COREP operates an energy conservation policy to ensure that:

- all non-critical equipment is switched off when not needed.
- low energy electrical equipment will be preferred for purchase.

COREP will endeavour to conduct as many tasks as are appropriate by electronic means in order to reduce paper usage.

COREP will always seek to purchase products, where practical and available, that are environmentally friendly, re-usable, recyclable and that do not damage the environment.
