

<p style="text-align: center;">Confederation of Registered Essence Practitioners (COREP) Access to Fair Assessment Policy 2013</p>
--

Introduction

This policy covers the arrangements for fair assessment for students taking any Confederation of Registered Essence Practitioners course. Students are made aware of the existence of this policy and have open access to it on paper in a folder from their tutor or on the COREP website.

All COREP Tutors are made aware of the contents and purpose of this policy. This policy is reviewed annually and may be revised in response to feedback from students, tutors, and external organisations.

Policy

Every student taking a COREP course will be assessed fairly. This means that:

1. assessment will be a test of what the student knows, what they understand, and what they are able to do.
2. for any particular course, every student will be assessed using the same overall set of activities and criteria.
3. all Tutors will work towards the same course objectives to ensure that all students in all courses have been judged against common content and criteria.

Appeal Procedure

If a student feels that they have not been assessed fairly then they should use the Disciplinary Procedure.
